Art Unit: 1205

DETAILED ACTION

Election/Restriction

Claims 1-90 are generic to a plurality of disclosed patentably distinct species comprising

- a. A method of treating fungal and infectious diseases.
- b. A method of treating infectious vaginitis
- c. A method of treating diseases caused by organisms selected from parasitic worms and viruses.
- d. A method of treating infectious disease in a human or an animal with a plant phytoalexin.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner K. Weddington whose telephone number is (703) 308-1235.
